

Understanding e-government

*Trois Perspectives pour entendre le gouvernement
electronique dans la société de l'information*

5 et 6 juin 2007, Rennes.

■ Objectif / question.

- **Comment est-ce que nous pouvons entendre le gouvernement électronique dans la société de la information?**
 - **How can we better understand e-government phenomena in the information society?**
-
- **Determinism**
 - **Social shaping**
 - **Others?**

- ***Sociological perspectives***
 - **Different configurations (Mansell, 2002)**
 - **How to intervene?**
- ***Hybrid perspectives***
 - **Shaping of technology by actors (i.e. Bijker, 1987 Heeks 2006)**
 - **Consideration of several aspects**
 - **Consensus, divergent interests?**

■ Méthodologie.

- Définition de perspectives
- Interview

<u>Pattern</u>	<u>Idealist</u>	<u>Strategic</u>	<u>Power-Based</u>

based work

interacti

• Differentia logs?

- There is an interplay of different patterns
- Idealist → strategic or power based
- Power-based could orient new definitions / autonomy of citizens *within* existing initiatives
- More research is needed to see other e-government experiences
